

Integration Mind
Integration services made easy

For Immediate Release

June 14th, 2008

LOS ANGELES, California – Integration Mind technical development and website consulting company and has been named the official developer for TrustCash, an anonymous billing company (www.trustcash.com).

TrustCash offers new merchants the option of having Integration Mind develop a billing integration solution by merely using TrustCash's billing payment option at NO CHARGE to webmasters.

"Integration time and implementation can be one of the major barriers when adding a new or additional billing platform to websites. We make this process as effortless and streamlined as possible for webmasters" – President, Claudio of Integration Mind.

Integration Mind has proven to be not only efficient and speedy, but a top innovative and creative force in the billing integration for many website owners. In addition, Integration Mind's developers are well experienced with working with top affiliate program software such as NATS, MPA3 and a myriad of other popular software programs.

"Expertise and efficiency are a key element for us. An integration which typically could take weeks or even months we can now do in just days," Claudio said. "It's a fast-changing world and we're very proud to be on the leading edge of billing integration innovation."

Integration Mind glad to be of service for ANY e-commerce integration no job is to small or complex for us.
